Most people have a preconceived notion about the existence and images of Angels; however my interpretation of whom they

ANGELS... *Who They Really Are...* PORTIA WILLIAMS

are is based on my experiences and accounts of the people I have met throughout my life.

I always had an inclination that Angels had only come from Heaven; however, I feel that they are not always in the image we refer to as the figure of a pure cherubic figure with wings -- Have you ever had a person in your life that just seemed to have come out of nowhere at the right time? Bringing you true friendship, healing, and happiness? I believe that an *Angel* could as well be your Neighbor, your Mom, your Pet or even just a Good Friend who has done something to give your life purpose.

Angels; are not always in the form that we see, they are indeed People! Just like you and me, I have had several experiences that I want to share with you about my story of more than one *Angel* in my life.
